| CQ-704  |  |
|---|--|
| 5. Fire-fighting measures   |  |
| Extinguishing media   |  |
| Suitable extinguishing media  | The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.   |
| Unsuitable extinguishing Do   | not use water jet as an extinguisher, as this will spread the fire. media  |
| Special hazards arising from the  |  |
| Specific hazards  | Containers can burst violently or explode when heated, due to excessive pressure build-up.   |
| Hazardous combustion products   | Thermal decomposition or combustion products may include the following substances:<br>Harmful gases or vapors.   |
| Advice for firefighters   |  |
| Protective actions during firefighting  | Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.  |
| Special protective equipment for firefighters   | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves will provide a basic level of protection for chemical incidents.  |
| 6. Accidental release measure   | S  |
| Personal precautions, protectiv   | ve equipment and emergency procedures  |
| Personal precautions  | Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk.  |
| Environmental precautions   |  |
| Environmental precautions<br><u>Methods and material for conta</u><br>Methods for cleaning up | Avoid discharge to the aquatic environment.<br><u>ainment and cleaning up</u><br>Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills<br>immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages:<br>Absorb spillage with non-combustible, absorbent material. The contaminated absorbent may<br>pose the same hazard as the spilled material. Collect and place in suitable waste disposal<br>containers and seal securely. Label the containers containing waste and contaminated<br>materials and remove from the area as soon as possible. Flush contaminated area with<br>plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see<br>Section 13. |
| Reference to other sections   | For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.  |
| 7. Handling and storage   |  |
| Precautions for safe handling   |  |
| Usage precautions   | Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Avoid discharge to the aquatic environment.  |
| -   | ish promptly if skin becomes contaminated. Take off contaminated clothing and wash or reuse. Wash contaminated clothing before reuse.  |
| Conditions for safe storage, ind<br>Storage precautions                                       | <u>cluding any incompatibilities</u><br>Keep only in the original container. Keep container tightly closed, in a cool, well<br>ventilated place. Keep containers upright. Protect containers from damage.  |

Storage class

Specific end uses(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.

Chemical storage.

### 8. Exposure Controls/personal protection Exposure controls Protective equipment Appropriate engineering Provide adequate ventilation. Observe any occupational exposure limits for the product or controls ingredients. Eye/face protection Wear tight-fitting, chemical splash goggles or face shield. If inhalation hazards exist, a fullface respirator may be required instead. Hand protection No specific hand protection recommended. Other skin and body Wear appropriate clothing to prevent repeated or prolonged skin contact. protection Hygiene measures Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product. Respiratory protection Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with OSHA 1910.134. Full face mask respirators with replaceable filter cartridges should comply with OSHA 1910.134. Half mask and quarter mask respirators with replaceable filter cartridges should comply with OSHA 1910.134. Environmental exposure Keep container tightly sealed when not in use. controls

#### 9. Physical and Chemical Properties

| Information on basic physical and chemical properties |                             |  |
|---|-----------------------------|--|
| Appearance  | Clear liquid.               |  |
| Color   | Colorless to pale yellow.   |  |
| Odor  | Odorless.                   |  |
| Odor threshold  | Not applicable.             |  |
| рН  | Not applicable.             |  |
| Melting point   | Not available.              |  |
| Initial boiling point and range                       | 215°C @ 0.5 mm Hg           |  |
| Flash point   | > 214°C Cleveland open cup. |  |
| Evaporation rate                                      | Not available.              |  |
| Evaporation factor                                    | Not available.              |  |
| Upper/lower flammability or explosive limits          | Not available.              |  |
| Vapor pressure  | 2x10(-8) mm Hg @ 25°C       |  |

a basis abusissi sa dabamissi araa siis

|------------------------------------|--|
| Relative density                   | ~ 1.07 @ 25°C  |
| Solubility(ies)                    | Insoluble in water.  |
| Auto-ignition temperature          | Not available.   |
| Decomposition Temperature          | Not available.   |
| Viscosity                          | 21.6 cSt @ 40°C  |
| Molecular weight                   | 484  |
| 10. Stability and reactivity       |  |
| Reactivity                         | There are no known reactivity hazards associated with this product.  |
| Stability                          | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.                                    |
| Possibility of hazardous reactions | No potentially hazardous reactions known.  |
| Conditions to avoid                | There are no known conditions that are likely to result in a hazardous situation.  |
| Materials to avoid                 | No specific material or group of materials is likely to react with the product to produce a hazardous situation.                                       |
| -                                  | es not decompose when used and stored as recommended. Thermal decomposition or products may include the following substances: Harmful gases or vapors. |
| 11. Toxicological information      |  |

## Information on toxicological effects Acute toxicity - oral

| Notes (oral $LD_{50}$ )          | Based on available data the classification criteria are not met. |
|----------------------------------|--|
| Acute toxicity - dermal          |  |
| Notes (dermal LD <sub>50</sub> ) | Based on available data the classification criteria are not met. |
| ATE dermal (mg/kg)               | 11,000.0   |
| Acute toxicity - inhalation      |  |
| Notes (inhalation $LC_{50}$ )    | Based on available data the classification criteria are not met. |
| Skin corrosion/irritation        |  |
| Animal data                      | Based on available data the classification criteria are not met. |
| Serious eye damage/irritation    |  |
| Serious eye damage/irritation    | Causes serious eye irritation.                                   |
| Respiratory sensitization        |  |
| Respiratory sensitization        | Based on available data the classification criteria are not met. |
| Skin sensitization               |  |
| Skin sensitization               | Based on available data the classification criteria are not met. |
| Germ cell mutagenicity           |  |
| Genotoxicity - in vitro          | Based on available data the classification criteria are not met. |
| Carcinogenicity                  |  |
|                                  | Based on available data the classification criteria are not met. |

| IARC carcinogenicity                 | None of the ingredients are listed or exempt.   |
|--------------------------------------|---|
| Reproductive toxicity                |   |
| Reproductive toxicity -              | fertility Based on available data the classification criteria are not met.  |
| Reproductive toxicity development    | Based on available data the classification criteria are not met.  |
| Specific target organ to             | vicity - single exposure  |
| STOT - single exposure               | e Not classified as a specific target organ toxicant after a single exposure.   |
| Specific target organ to             | vicity - repeated exposure  |
| STOT - repeated expos                | sure Not classified as a specific target organ toxicant after repeated exposure.  |
| Aspiration hazard                    |   |
| Aspiration hazard                    | Based on available data the classification criteria are not met.  |
|                                      |   |
| General information                  | The severity of the symptoms described will vary dependent on the concentration and the length of exposure.                           |
| Inhalation                           | No specific symptoms known.   |
| Ingestion No s                       | pecific symptoms known. Skin Contact  |
| No specific sy                       | mptoms known.   |
| Eye contact                          | Irritating to eyes.   |
| Route of exposure                    | Ingestion Inhalation Skin   |
| Target Organs                        | and/or eye contact<br>No specific target organs   |
|                                      | known.  |
| 12. Ecological<br>Information        |   |
| Ecotoxicity                          | Not regarded as dangerous for the environment.<br>However, large or frequent spills may have<br>hazardous effects on the environment. |
| Toxicity                             | Based on available data the classification criteria are not met.  |
| Persistence and<br>degradability     |   |
| Persistence and degradability        | The degradability of the product is not known.  |
| <u>Bioaccumulative</u><br>potential  |   |
| Bio-Accumulative                     |   |
| Potential<br><u>Mobility in soil</u> | No data available on bioaccumulation.   |
| Mobility                             |   |
| -                                    | No data available.  |
| Other adverse effects                |   |
| Other adverse effects                | None known.   |
| 13. Disposal                         |   |
| considerations                       |   |

|                           | CQ-704   |
|---------------------------|--|
| Waste treatment           | The generation of waste should be minimized or   |
| <u>methods</u>            | avoided wherever possible. Reuse or recycle<br>products wherever possible. This material and its   |
| General information       | container must be disposed of in a safe way.   |
